

# TERRY HISTORIC TRAIL

*Journey  
through the past*

## What Is the Volkswalk?

The full Volkswalk is listed as a 10k trail (6.2 miles) by the American Volkssport Association - [www.ava.org](http://www.ava.org). Both the 10k and the shorter 3.5k (2.2 miles) versions of the trail meander through Terry's tree-lined streets, past our most historic homes, businesses, and buildings (see reverse).

## Pick Up a Trail Pamphlet

Stop in the lobby of the Kempton Hotel, the longest continuously operated hotel in Montana, to pick up a full pamphlet with historic information about each stop along the trail and a map of the tour routes.

## Trail Recommendations

The walk should be completed during daylight hours. While the route *in town* can easily accommodate strollers and leashed animals, the *full trail* has graveled and highway sections that may be insufficient for large groups, very young children, and pets.

Small bronze pineapples designate stops along the trail.

# TERRY HISTORIC TRAIL

*Journey  
through the past*

## A Rejuvenating Walk

The Terry Historic Trail includes a stop at the Prairie County Museum complex, a visit to the doorstep of Evelyn Cameron's dearest friend Janet William's home, Terry's first "modern" home built in 1917 that included indoor plumbing, the famous fancy Stith outhouse, the nationally registered historic Grandey School, and the grave of internationally renowned pioneer photographer Evelyn J. Cameron.

## Can't Get Enough of History?

Head west through Terry along Old Highway 10 to view the Powder River Historic Point, detailing the fateful journey of Custer's troops on their way to the Battle of the Little Big Horn (6.7 miles from downtown). Or, stop at the Undaunted Stewardship® interpretive exhibit (7.5 miles)—complete with buffalo hunters' graves, signage, and a short series of wide, well-maintained trails overlooking the Yellowstone River. A left turn a little further down the road will reconnect you to I-94.
